

Jan Leyers "One Too Many"

Visit "[One Too Many](#)" on MotoLyrics.com

I like what I hear whenever I think out loud
I sum it all up unless you want to think it over
I like what I see lookin' up at the clouds
Whatever's on top I don't want to shake it down
Too many titles in my head
Tell me again 'cause I forget
Can you blame me now?
Too many numbers in a set
Give me a line I won't regret
'cause I'm fading out
See how I look when you call me a different name
Sleep through it all, wake me up when it's over
I like how it feels lying out in the rain
Suck it all up, we're never gonna be the same
Too many titles in my head
Tell me again 'cause I forget
Can you blame me now?
Too many numbers in a set
Give me a line I won't regret
'cause I'm fading out
One too many
One too many
(Too many titles in my head
Tell me again 'cause I forget
Too many titles in my head)
Tell me again 'cause I forget
(Too many numbers in a set
Give me a line I won't regret
Too many numbers in a set)
Give me a line, give me a line
Don't you wanna call out?
Standin' in the fallout
