There are some things you never learn  
But you have known forever  
Why do they take so long to find?  
There are some secrets time will never tell  
Till fools get clever  
But some of them will blow your mind  
Let's get to the bottom of this  
Way below the waves  
Below the surface  
Let's get to the bottom of this  
That's where the pearl is  
Why do you call me up to say  
That you don't feel like talking  
We'd only gain if we would share  
How come we rush right to the edge  
If we're afraid of falling  
Why don't we find out what's down there?  
Let's get to the bottom of this  
Way below the waves  
Below the surface  
Let's get to the bottom of this  
That's where the pearl is  
Fall into a world few will ever see  
Take a deep breath and follow me  
There's a treasure down in the abyss  
I ain't gonna tell but you don't wanna miss
