mister star by Jantje Smit
Many times i dream and say
when i am a man one day
What will happen, what will i be?

Will i be a millionaire
or a pilot in the air
What will happen, what will i be?

Every night i look into the sky afar,
then i talk to my friend, a twinkeling star

Mister star, mister star, can you tell me,
will my beautiful dreams all come true?
You're so high in the sky, so you know everything about
me
Say 'what i will be', please say what i will be

A sailorman, a movie star
or a singer in a bar
What will happen, what will i be?

Every night i look into the sky afar
Then i talk to my friend, a twinkelstar

Mister star, mister star, can you tell me,
will my beautiful dreams all come true?
You're so high in the sky, so you know everything about
me
Say 'what i will be', please say what i will be'
