mother earth by Jan Smit  
Mother earth your sons and daughters  
Lost their way  
Can't you hear them cry  
They betray and kill their brothers  
Give me the reason  
Tell me the reason why

Why are rivers overflowing  
Drowning people terrified  
Why is there hate between the races  
Give me the reason  
Tell me the reason why

Is there a future without weapons, without war  
Is there a future where young men can make love  
And won't fear to die  
Fear to die Mother earth, your core keeps shaking  
Killing your children, i wonder why  
Millions suffer, in starvation  
Give me the reason  
Tell me the reason why

Mother earth, i'm at my wit's end  
I thought we all had equal rights  
But some are rich, while some have nothing  
Give me the reason  
Tell me the reason why
