riding the country by Jan Smit  
Friday afternoon the weekend calls  
All my home-work now is done  
I feel the lure of Niagara Falls  
Guess it's time for love and fun  
I call my friends and pack my bags  
We meet up by the park  
The motorbikes are purring so relax  
As we start off in the dark  
It is crazy beyond all comparison

Hitting the road and head out for the sun  
Riding the country, riding the country  
Having a good time  
Riding the country, riding the country  
Out in the sunshine

So when you're sick and tired of everything  
Don't hesitate, go on a spree  
I'm gonna tell you 'bout my medicine  
A motorbike will set you free
