I'm coming home soon brother
Keep that jammin' warm for me

Fingers going crazy, well the
Same old thing's happening to me

I've been gone for such a long, long time well my
Hands are waiting and my mind's on the line

My head is spinning, well this must be a sign
I got to get on home

Sitting in this room here, trying to write a simple song
The other half's not with me and I'm afraid it's been
A little bit too long
Going down and get me booked on a ride
Or I'll have to swim it, say the hell with the tide

Got to get me some of that good old rock and roll
Mama take me home

I've been gone for such a long freakin' time, well my
Hands are waiting and my mind's on the line

Got to get me some of that good old rock and roll
Mama take me home.
