You are my light you are my night sky
You're the last wind of the day
You are what's right in my lifetime
You're the last wind of the day

You are the art in my paintings
You are the poet of my ways
You are the earth I am the sunshine
You're the last wind of the day

You are the time, you're my night sky
You're the last wind of the day
You are the sea, I am your night dream

You're the last wind of the day

You are the meadows in my sunshine
You are the color of my blue
You are the breath that I breathe now
You're the essence of the truth

You are the fragrance of the flowers
You are the answer to my ways
You are the air I am the mountains
You are the last wind of the day
