If she really turns you on, then go on
Do your gig and play it cool
If she really turns your head, then go ahead
Take a chance and play it cool

But if she really makes you cry
Then she really rates a try

Oh woman, see what you've done to me girl
Oh woman, see what you've done

I'm so bitter, you're so sweet
I'm so empty, you're complete
You found the path off on your own
Now I'm just someone else's clone

You had the wheel and let it go
I'm just a stranger that you know
Oh woman, see what you've done to me girl
Oh woman, see what you've done

As you watch my sinking ship
And you're really on a trip
With a ruler in your hand
You can't measure up a man

You had the wheel and let it go
I'm just a stranger that you know

Oh woman, see what you've done to me girl
Oh woman, see what you've done...
