

## Jan Wickline "Wedding Bells"

Visit "[Wedding Bells](#)" on [MotoLyrics.com](https://MotoLyrics.com)

There's something I got to say  
If it takes all night I'll make it  
It's got to be that way  
It's in my heart you know I just can't fake it

I'll always be there for you  
My only angel that's true  
And if you feel it as well  
It's the last time that we'll play those wedding bells

Feel the sky getting gray  
So let's hold hands enjoy the rain together  
Got to be that way  
It's in my heart, the sun will shine forever

Now that we have a song  
I know nothing can go wrong  
And if you feel it as well  
It's the last time that we'll play those wedding bells  
We've had pasts before us  
But this is all very new  
This is all built upon trust  
I know we'll make it, G-d help us make it

There's something I got to say  
If it takes all night I'll make it  
It's got to be that way  
It's in my heart you know I just can't fake it

I'll always be there for you  
My only angel that's true  
And if you feel it as well  
It's the last time that we'll play those wedding bells

Ring wedding bells (7X)
