"Bells And Voices"

The bells sound early in the morning
They sound late in the night
When the skin comes tied to your phone
There's no stopping the bells
You said the people are on the phone asking if you
want to go here or there
Hey would you come along
And then they either come or don't
And that's what you do - you either come or go
That's what I do - I either come or go
Come along
I left a long time ago and I guess you didn't notice
Yeah you are catching up
Boy you don't know what you're doing
