Sorry for what I just could not do
Sorry for all that I put you through
I fell apart
I fell apart over you

Sorry's such a sad word to use
Sorry's not a word I would choose
I fell apart
I fell apart over you

When I see you
I just see the pain
When I feel you
Nothing feels the same

I faded love
Faded love
Faded love
Ran for cover

I wasted love
Wasted love
Wasted love
Now it's over

Worry won't make things work our way

Worry makes us both too afraid
I fall apart
I fall apart over you

Worry that there's nothing to say
Worry that there's too much to say
I fall apart
I fall apart over you

When I see you
I just see the pain
When I feel you
Nothing feels the same

When we took our places

With a story untold
I had so much to give

Then you had to ask for something
That I never could give
So I gave you nothing
Gave you nothing at all
