"Find Me Again"

Visit "[Find Me Again](#)" on MotoLyrics.com

I don't show nothing to nobody
You got to steal from me
I played your game
You got to change your ways
You got to be real good
I'll make myself better
Just need a rest here
But somehow you worked real hard
And you found me
You got to play my game
Find me again
I put it up for sale
I took my name away
I'll still communicate
You'll hear from here or there
But I got to be dark again
I came to close to the fire
And now the stars and cold
I'm going out of town
I covered up my tracks
I'm smart as a man
I'll hide far away
And protect the cave
