I talked to you today  
It was so nice  
You laughed, sounded happy, in a surprised way  
You got me excited  
Oh, I'm very, very excited  
I'm thinkin' about you  
I'm thinkin' about you  
I know there'll be some changes, you and I  
I gotta see if you can accept my requirements.  
I gotta see if I can adjust myself to meet your  
requirements, but  
I would like to try, definitely  
It seems good to me - I want to try for sure  
Believe me, my body is getting into something I don't  
quite understand, but  
That's good  
It's not bad, definitely not bad  
It's good  
I suppose we could be disappointed  
Obviously, I'm willing to take that chance, and so are  
you  
I like that about you  
I suppose we remind each other of something,  
someplace  
I remember the first time  
It's not something you forget  
I guarantee, I'll match that first time  
The next time  
Which is not too long from now
