"I Went To Hell"

Visit "[I Went To Hell](#)" on MotoLyrics.com

First I went to hell
Then I went to heaven
Can I catch you on your way to hell
Take the life that's coming out of you
And when it's heaven
I can't go with you when you die
But I died too
And I was born into your loving arms
We use our bodies to describe what we feel
I got a chair and a carpet for you
But I don't know where you live
First I went to hell
Then I went to heaven
Can I catch you on your way to hell
Take the life coming out of you
And when it's heaven
I can't go with you when you die
But I died too
And I was born into your loving arms
We use our bodies to describe what we feel
