I was walkin' down a road  
I was movin' down a road  
Walkin' down a road, movin' down a road  
And saw you comin' by  
I was walkin' down a road  
I was movin' down a road  
Walkin' down a road, movin' down a road  
And saw you comin' by  
Walkin' down a road, movin' down a road  
And saw you comin' by  
I was walkin' down a road  
Movin' down a road  
You were comin' down a road  
I saw you comin' down a road  
I turned around you turned around  
And now we're walkin' down a road  
Now we're movin' down a road  
I see you movin' down a road  
I see you walkin' down a road  
You see me walkin' down a road  
You see me movin' down a road
