"Lonesome Bridge"

I heard this from the management
Don't think twice just pay the rent
There's a lot of days that you've just spent
Living in a long gone wilderness tent
Wilderness tent
Just about a mile over the ridge
You'll have to cross a lonesome bridge
Looking out yonder over the trees
Sun comes shining ever you please
Blow me [2x]
Mister soft breeze
Before this apt gives me the freeze
Gives me the freeze
Waiting for March to come along
Carrying good luck for this song
Its a lucky charm and means no harm
Oh good gracious its a false alarm
It's a false alarm)
