Sometimes go to Niagra
Sometimes go to the grave
Crazy about your dream
Crazy about your dark night
You think you're crippled too
Cripple me a cripple, oh
I think an old black one's got you now
Think it's out of sight
Guess a moving picture's nice
Sitting here I saw it thrice
Ooh, all around you shaking night
You got me in a living fright
Oh, don't wanna touch it just now
Don't wanna talk a man now
Just give me a little place here
The night is coming now I fear
Come out in a minute then
Been saying that since don't know when
???
I have you forever now
