Something got inside of me and started hurting me  
I just let it happen  
It's not too late  
I said why you'll hurting you'll  
No more, I'm over  
I see it clear right now  
Got to get it out of me  
Got to bleed my bad things  
Communicate all around  
Got to fire me up on juice  
And maybe go to water  
Where are they now?  
If I could be in a meadow  
Granite rocks all around  
Why, I like the city  
Now I knows your name  
So it's far away  
Where the people don't play  
I got my demons strangled by the throat
