### "Only Lover"

Visit "[Only Lover](#)" on [MotoLyrics.com](http://MotoLyrics.com)

You never smoke a cigarette when you are doing  
something  
Only when you are half doing it  
You are a teenage runt with a lot of cream, Sparky  
Gone floating down a river to Madrid  
And a car pull in softly  
Waiting for the footsteps  
How has she followed me here  
The tent I went to wasn't mine  
It was a cantaloupe's  
Cantaloupes are so good to eat  
When you dream of your Johnny in a shower  
Gone floatin' down a river to Madrid  
I love you my lady  
I love you like I do  
Why you make me so blue  
A-kill me, kill me, kill me  
Kill me, kill me  
I think I'm a goner  
When I see one of your shoes  
Gone floatin' down a river to Madrid  
You're the reason I live  
You're the cause of my death  
I love what I can't help  
You took my success  
Will you take my failure  
After Arnie took a pill from the bottom  
He wasn't ne'er the same  
You ought to be gone floatin' down a river to Madrid  
I hear you bought a new dress  
A red the color of your kiss  
Darlin' are you with me now  
A-kiss me, kiss me, kiss me, kiss me, kiss me  
Ohhh it's my time to die  
When I think of your black lips  
Gone floatin' down a river to Madrid  
Found a painted pony in your breast  
Can I tell you the rest  
I love you goddess  
Listen mister can you be my monkey  
Feel my pulse take a stab at my arm

I wasn't meant to have a garden  
Gone floatin' down a river to Madrid  
Jezebel, you're my favorite  
In your country I roam  
Listen to me now, lady  
Worst I had to tell you was I followed you here  
First you made me promise that I wouldn't leave  
Then I found my freedom  
Gone floatin' down a river to Madrid  
Lost some lovely on the way  
You gave them back I heard you say  
You're my only lover  
Like a kangaroo I'm only half doing what I do  
Jesus stares at me from the wall  
And I think I like your bosom  
Aw gone floatin' down a river to Madrid  
Ahh, you hear my music  
Oh, lord I think it's hard to tell  
How she followed me here
