"Rain In Madison"

Rain's pouring down in the window
And I'm sitting here in Madison
Trying to figure out where you are
Yes, I'm sitting here in my car
Drove a long long way
But I didn't have no rain until today
I was way out far where it didn't rain much
I could see pretty clearly
But now today there's all this rain
I guess it's the end
I guess I just really didn't know
And now we've got to stay here
Or else get all wet
You know you can't bring no
Electric devices out into the rain
