I got my things to do tomorrow  
They're on the table  
They're in my new future  
Tomorrow is their purpose  
Sticks in the marsh  
As I wandered through that old abandoned house  
I stayed in overnight, yeah I stayed there overnight, the  
old abandoned house  
I didn't care about all the dreams that went before me  
in that house  
The water in the streams, I put my feet in there  
I traveled day and night  
One change of clothing in my pack  
And a blanket, too  
I used the sun to find my way  
I looked to the man sun God  
My guidance on that earth  
To get to the place I saw on the map  
There is no God, God is everything  
It's all a picture we're painting on the street  
I got my walking shoes on
