It turned night time on me  
All of a sudden it's dark  
I thought I was just layin down  
But really I'd passed some time  
Where did the time go?  
Why did I shut out my lights?  
I blew them out  
Out out out out  
Finally I have stopped  
I really stopped  
Hey, look around  
What a spin I just came out of  
Must have been years  
What a spin I just came out of  
Where am I now?  
At least I'm stopped  
I'm stopped  
What did it take  
To stop me?  
I'm really stopped  
The spin has all spun  
Now I'm stopped
