Well, you can think about your lady  
And you can think about your car  
And never forget who you are  
And then your thoughts, mister  
They ain't no company  
And baby this evenin' will be lovely  
Smell the clean air  
Oh honey, let's make it nice  
For I'm thinkin' out  
Oh when that day comes  
Gonna set my alarm  
I wanna bring it home to you  
You're mine tomorrow  
You're mine today  
Drivin' a car, it's a Cadillac  
And got some praise today  
Oh down there you know you lied to me
