Well let's burst upon the grandeur
Second to see the scene (?)
And when it's time
To find a ???
Too close to ??? your picture
I'm down to
You deliver a place for me
I ??? upon a ??? of stone
???

You turn around to ???
You ??? run away
You smile ???
I pray to see the day
And if you go away
I will wait here and miss you
Oh join hands and lead the way
Reborn again today
I feel whimsical
That's the whimsy
And there's no question
Ask any man in the world
And when this time is over
There'll be another one
To be ??? this (?)
And you're moving on to the next one
??? lurks

It's cold and your neck hurts
There ain't a ??? here no more
A letter's by the door (?)
I leave by dawn today
To find another way
'Til the day I see the light
That brings my fortune here tonight
