What can I say what can I sing  
You always knew about everything  
What can I show what can I do  
Is it all for me, is it all for you  
Well I don't know, we'll have to see  
Everyone needs, 'cept you and me  
And then sometime I'm not so sure  
There'll never be another cure  
The early morning sun shines through  
And all my thoughts are shades of blue  
Oh I don't know, I'll have to go  
Oh I don't know the reason for  
I already left  
It's no surprise  
I saw it in your raining eyes  
Adrift a dream  
A time we spent  
Much more than that  
Forever was all that we meant
