Wondering what your enthusiasm is gonna be like  
When I see you again  
I got a good feeling about it  
And I'm prepared for whatever results from the next  
time we get together  
And it's not too long away.  
I'm gonna see you soon  
We got an appointment  
We got a time set  
I'll be there  
And, I expect, so will you  
We'll be waiting to see how we look to each other  
The next time we get together  
But I got a good feeling about it.  
I think you do too  
I really do think that you got a better feeling about it  
than I do  
But I like that  
I sure do like that
