I have decided to
Give you my love
You have it
I want you to have it
I want you to have it
And I know you want it too
So that means
We're there
Baby
Honey-child, we're there, and
Guess what
We're happy
And not just me
You're happy, too
You're so happy
I can see it in your face
I can feel it in all the
Emanations from your body, I -
I know it
You made me know it
Thank you so much
Girl
Girl
Girl
Thanks so much
