First I went to hell  
Then I went to heaven  
Can I catch you on your way to hell  
Take the life that's coming out of you  
And when it's heaven  
I can't go with you when you die  
But I died too  
And I was born into your loving arms  
We use our bodies to describe what we feel  
I got a chair and a carpet for you  
But I don't know where you live  
First I went to hell  
Then I went to heaven  
Can I catch you on your way to hell

Take the life coming out of you  
And when it's heaven  
I can't go with you when you die  
But I died too  
And I was born into your loving arms  
We use our bodies to describe what we feel
