Something got inside of me and started hurting me
I just let it happen
It's not too late
I said why you'll hurting you'll
No more, I'm over
I see it clear right now
Got to get it out of me
Got to bleed my bad things
Communicate all around
Got to fire me up on juice
And maybe go to water
Where are they now?
If I could be in a meadow

Granite rocks all around
Why, I like the city
Now I knows your name
So it's far away
Where the people don't play
I got my demons strangled by the throat
