Not even water
Crossed my lips
How many, I can't move
???

The stars are sinking
???

Not even water
Crossed my lips
I'm a gone, goner, goner
Hanging out to dry
The wind just swept me
On over to here
The stars are sinking
I don't know what to do
Not even water
Crossed my lips

???

Didn't get me up
I'll see you later
On down the road
The stars are sinking
I don't know what to do
Not even water
Crossed my lips
