## "Relief Of The Night"

Why a picture  
Is it all too false  
The shepherd gathers in  
Voices from the darkness  
Bleeding from lonely mountains  
They are more quiet at day  
Sight in the sun  
Live and survive  
The tale is not weary  
Relief of the night  
You will never wake up  
The mind must die  
Sleep to me now  
I'm pounding  
Release this beat

This nerve  
Anesthetize this being  
You will never awaken  
Tomorrow is on the other side  
Of a sight that is night  
Shelter me  
O mother of miracles  
I am entangled in swamps
