It turned night time on me
All of a sudden it's dark
I thought I was just layin down
But really I'd passed some time
Where did the time go?
Why did I shut out my lights?
I blew them out
Out out out out
Finally I have stopped
I really stopped
Hey, look around
What a spin I just came out of
Must have been years
What a spin I just came out of
Where am I now?

At least I'm stopped
I'm stopped
What did it take
To stop me?
I'm really stopped
The spin has all spun
Now I'm stopped
