Well, you can think about your lady
And you can think about your car
And never forget who you are
And then your thoughts, mister
They ain't no company
And baby this evenin' will be lovely
Smell the clean air
Oh honey, let's make it nice
For I'm thinkin' out
Oh when that day comes
Gonna set my alarm
I wanna bring it home to you

You're mine tomorrow
You're mine today
Drivin' a car, it's a Cadillac
And got some praise today
Oh down there you know you lied to me
