"When I See You Again"

Wondering what your enthusiasm is gonna be like
When I see you again
I got a good feeling about it
And I'm prepared for whatever results from the next
time we get together
And it's not too long away.
I'm gonna see you soon
We got an appointment
We got a time set
I'll be there
And, I expect, so will you
We'll be waiting to see how we look to each other
The next time we get together

But I got a good feeling about it.
I think you do too
I really do think that you got a better feeling about it
than I do
But I like that
I sure do like that
