You are the ignited, power I cannot explain
I get so excited, love that I cannot unchain
When we make contact, and you start to rise
You'll be the only one, my DS 21
Pushing the maximum, me and my, my DS 21
I'm turning you on, I'm starting the fire
We know where it's going when sparks start to fly
When we make contact, and you start to rise
You'll be the only one, my DS 21
Pushing the maximum, me and my, my DS 21
Take me to the limit, my foot's to the floor
I want to go faster baby, keep giving me more
You'll be the only one, my DS 21
Pushing the maximum, me and my, my DS 21
Allons Y tout le monde with my DS 21
They'll never overcome me and my, my DS 21
