Got a troubled tambourine  
Lots of lettuce in between  
Bitching like a billionaire  
Seem to surface everywhere

Digging ditches, slinging hash  
Daily double's on the dash  
Baby all we do is fight  
Catch a soaker every night

I want you to love me, throwing everything I can  
A heat-seeking hustle, got a joy-stick in my hand  
And if you play me over, I will make you understand  
And lay your sugar down, spin me round, spin me round

Hearts are breaking at the door  
Shatter-proof in haute-couture  
Loaded like a magazine  
Coldest thing you've ever seen

Super-sexy coin  
Engine #1  
Almost died of joy  
Honkey catch you some  
Fill my piggies full  
Multiply it loud  
Got a miracle right there in your mouth
