"A Thing Goin' On"

Look here we got a thing going on
Never fear we got a thing going on
Ain't nothing to it
Got to get down and do it
I tell you the truth
Ain't jivin' you

Lord, Lord, we got a thing going on
Something in this place
It's on every face
It's catching fever
You just can't leave her

Look here we got a thing going on
Never fear we got a thing going on

What we gonna do
We're gonna roll through
Do it right, keep it light

Lord, Lord, we got a thing going on
Look here we got a thing going on
Never fear we got a thing going on
