I've got a fine-looking woman, she's fine and brown

She likes to boogie in the kitchen, likes to boogie
'round town

Hold on baby, hold on baby

Hold on baby, you're moving too fast for me

Talking about that woman, she's up early in the morn

Making love with me before the break of dawn

Every night about twelve o'clock

She starts making love to me till I think I'm gonna drop

She's a fine-looking woman, she's fine, no doubt

Everything I need but she's wearing me out

Don't get me wrong, I'm a-telling you right

Since I met her I get no sleep at night
