I've been so lonely in these prison walls  
Good lord, thinking I would die  
You've got the time to get me out  
I'll kiss this world goodbye

I've taken some things I don't really need  
I've walked the night til I cried (?)  
Just wave me off, I'll leave without doubt  
I'll kiss this world goodbye

The rain will fall and (?)  
I need a woman.. (?)  
Lord, I think I'm gonna die

I've taken some things I don't really need  
I've wandered out my pride (?)  
Just wave me off, I'll leave without doubt  
I'll kiss this world goodbye
