"Nobody But You"

Nobody but you in my dreams at night
Nobody but you in my thoughts
Nobody but you in my dreams at night
Without you I am lost, without you I am lost

Can't seem to sleep after the sun goes down
Walking the streets is all I do
If you ever look you'll find me hanging 'round
Nobody but you, nobody but you

Nobody but you in my dreams at night
Nobody but you in my thoughts
Nobody but you in my dreams at night
Without you I am lost, without you I am lost

Without you I am lost
