"Infinity"

Visit "[Infinity](#)" on MotoLyrics.com

As far as the eye can see
That is where I will be
And life after life
I will be by your side

No beginning and there's no end
Souls come together again and again

And I love you...I love you infinity

There's no such thing as time
We are endless we'll never die
So come and take my hand
Lead me to this Neverland

No beginning and there's no end
Souls come together again and again

And I love you...I love you infinity

Musical bridge

No beginning and there's no end
Souls come together again and again

And I love you...I love you...infinity
