A Blue Kiss
Colouring me goodbye
A New Kiss
Could never feel so fine
Tomorrow
I'll be living in black & white

Why? Does it have to be such a Blue Kiss
When I kiss you
Now! I'll colour my world with a Blue Kiss
I've got kisses for you

Red Lips
Kissing away my fears (I miss you)
A Blue Kiss
Bringing me back to tears (I love you)

Why? Does it have to be such a Blue Kiss
Yeah these kisses are blue
Now! I colour my world with a Blue Kiss
I've got kisses for you

A prism of love surrounded us
Don't you see what our hearts knew
How can you choose a one coloured world
When you know that I've got a rainbow for you

Last night a spectrum filled the sky (I miss you)
This morning you're shattered with your goodbye (I
love you)

Why? Does it have to be such a Blue Kiss?
When I kiss you
Now! I'll colour my world with a Blue Kiss
I've got kisses for you
