### **"Autumn Return"**

Visit "[Autumn Return](#)" on MotoLyrics.com

Autumn has returned along with rooks  
rain is cleansing the air of the dust from the roads  
clouds of steam are slinking in the hills  
and bringing dreams of ages past  
a pack of dogs are playing with children  
Horses are running along plains  
it's peaceful and quiet  
The dreaming land slowly disappears in the mist  
and at once something becomes cold in our hearts  
Trees are falling asleep  
All is so silent  
As though time has stopped for a while to wish us to  
remember  
We have known each other for a long time
