She said, "Do you think you could?"  
And I said, "Yeah, yeah in a second"

We're sitting by a waterfall  
And when the people jump in  
They hold their nose  
And kiss these walls  
Granite walls, water-polished walls

Just don't ever wanna move from this spot  
You could sit here for so long  
There's a slide, sui-slide  
You can live or die  
Going down, going down

Boy came to the slide  
We said, "You want to go down that slide?"  
He said, "No man, hey you got a joint to sell me?"  
We just smoked one, we got a roach, we said  
"I'll, I'll, I'll, I'll smoke the roach!"  
But first go down that slide, man  
Go on down, go on down, go down

I'm sitting by a waterfall  
I couldn't bear to watch the people slip and fall  
You know the plants on the rocks are crazy  
Thinking that they could start a life  
On the spiral walls of the waterfall

Slow divers  
Their view is spectacular
