Here we go

Power tripping, your luck is switched
Oh, so now it's funny
When it's your turn is to laugh
Go poke the running joke

Scoring points with God
Get no perfect marks
Man, your grades keep falling
How you treat the weak is
Your true nature calling

Porn chick calls herself a therapist, baby
Call it what it is
All the money in the world
We'll go to war, you backward hero's

Come to rescue you
Just to lien on you
With interests soaring
How you treat the weak is
Your true nature calling

Motherfucker do you really care?
Motherfucker do you really care?

Please believe
We live and breathe
Through native tongue and poetry
All these years and we believed, yeah

Scoring points with God
Get no perfect marks
So your grades keep falling
How you treat the weak is
Your true nature calling
