Under the starlight
I will be with you tonight
Don't care about what they say
I'll be with you today

Never apart
always in my heart
Never away
Baby Im here to stay
I am never gonna gooooo away

look at the moon
you are with me too soon
I thought i told you to wait
Baby it is too late

Never apart
Always in my heart
Never away
baby i'm her to stay
I am never gonna goooooooooo away

I am sick and tired of your excuses
Baby you are acting just to useless
Don't try to run
you have had all your fun
Now it's my turn

Never apart
Always in my heart
Never away
baby i'm her to stay
I am never gonna goooooooooo away

Never apart
Always in my heart
Never away
baby i'm her to stay
I am never gonna goooooooooo away
