Tommy thinks the crazies are back in my mind
Tommy says the children are clouding my head
When everything is wrong I dance inside my mind

That's when I come alive!
Like a schizo running wild, that's when I come alive
now!
Now let's go wild, owww!

We're kicking at your window and keeping you up
And if you come to find me I'll color you red
We dancing in the dungeon every Monday night

That's when we come alive!
Like a schizo running wild, that's when I come alive!
Now let's go wild!

You want to see me crazy, you're taking my meds
And wipe away my noises, you think I'm a mess
Take me six feet under, but while your roses died I
came alive!

You better leave the town you, got me coming for you!
Call the Tommy up and tell him come help you out!
I'm getting wild on you, you better go and call the law!

Say yeah, yeah, yeah, yeah, yeah! Oww!
You don't know nothin'!

When Tommy thinks the crazies are back in your mind
When Tommy says the children are clouding your head
When everything is wrong you just dance inside your
mind, and you'll come alive!

You don't know nothin', you don't know nothin'!
You gotta give me more!
