You said - Janet Gabriel/Blueprint Music

Chorus:

You said that you'll be there for me but you wasn't
You walked out of my life
Now you wanna talk like it never happen'd
No way, no way, no way
You said that you'll be there for me but you wasn't
You walked out of my life
Now you wanna talk like it never happen'd
Happened, Happened, Happened

When we first hooked up
You said the right things
You wined and dined me, baby
Bought me fancy dresses, happiness is everything you
were
When you said you loved me
Said you need me
Never leave me
Boy you made me feel like the most precious woman in
the world

Then you leave me
For a lady of the night
It's just not right
Believe me
If you wanna come back, boy you're outta your mind

Chorus:

You said that you'll be there for me but you wasn't
You walked out of my life
Now you wanna talk like it never happen'd
No way, no way, no way
You said that you'll be there for me but you wasn't
You walked out of my life
Now you wanna talk like it never happen'd

Happened, Happened, Happened

It's no use pretending you still love me anymore
You've got your mind made up before

you walked out of the door
Now it all messed up, I'm all mixed up deep down
inside
Boy I've seen the girl I saw the pearls
Why did you lie?

Now you need me
She aint everything that you left me for
Just leave me
Don't call no more
Don't knock on my door

You said that you'll be there for me but you wasn't
You walked out of my life
Now you wanna talk like it never happen'd
No way, no way, no way
You said that you'll be there for me but you wasn't
You walked out of my life
Now you wanna talk like it never happen'd
Happened,Happened,Happened

Rap

You said that you'll be there for me but you wasn't
You walked out of my life
Now you wanna talk like it never happen'd
No way, no way, no way
You said that you'll be there for me but you wasn't
You walked out of my life
Now you wanna talk like it never happen'd
Happened,Happened,Happened
