It's traveling faster than the eye can see
Information in the sky
Messages beamed across the atmosphere
Transmitted by you and I

Communication
Say the words
Are you there? Can I be heard?
First indication
Heart to heart
Come together worlds apart

Oh, thank heaven for the microwave
Can't ignore technology
It's so easy to communicate
How come you're not hearin' me

Communication
Say the words
Are you there? Can I be heard?
Station to station
Coast to coast
Face to face will tell you most

Now we're livin' in the computer age
The picture's on my video
I keep your number in my database
Turn it onto audio

Communication
Say the words
Are you there? Can I be heard?
(Why don't you say that you need me)
Person to person
Heart to heart
Come together worlds apart

Communication
Say the words
Are you there? Can I be heard?
Station to station
Coast to coast

Face to face will tell you most

Communication
Say the words
Are you there? Can I be heard?
First indication
Heart to heart
Come together worlds apart

Communication
Say the words
(Why don't you say it babe)
Are you there? Can I be heard?
(Why don't you say it babe)
Communication
(Why don't you say it babe)
Heart to heart
Come together worlds apart
Communication
