We are a couple  
Whose love knows no bounds  
And pleasure is double  
Whenever you're around  
Love is much deeper  
When you make it like this  
And nothing is sweeter  
When the two are mixed

Your kiss has got a poetry  
That leaves me shakin' in the knees  
Oh baby  
And when you joining in the action  
I can hardly breathe

Love 2 love you  
I wanna touch you too  
Please share my groove, ooh  
I don't deny this is the love for me  
Wait, don't move  
I wanna taste you too  
Damn baby ooh  
You both bring me the kinda of joy I need

Now when we get on a roll  
Sugar there's no slowing down  
You're just like me so you know  
How to make it all come out  
And yeah, I can't forget about you no baby  
How you touch, lick, kiss  
Stroking my love  
The way that you do

Your kiss has got a poetry

That gets leaves me shakin' in the knees  
Ooh baby  
And when you join in the action  
I can hardly breathe  
Damn baby

Love 2 love you

I wanna touch you too  
Please share my groove, ooh  
I don't deny this is the love for me  
Wait, don't move  
I wanna taste you too  
Damn baby ooh  
You both bring me the kinda of joy I need

Love 2 love  
Fantasy, but it's more than just  
A dream I am in ecstasy  
My wish is to give to you  
All of the thrills you give  
To me now lemme feel  
All of you  
And while I'm feelin' baby  
You have your way make me  
Your slave, I will behave  
Play all the games  
Just for you

Love 2 love you  
And I wanna taste you  
While I'm touching you baby  
I can't wait to feel ya  
Love 2 love you  
And I love how you love me too
